Proposal Eligibility

Proposal Eligibility Questions

It is the Foundation's general policy to give preference to proposals seeking funds for new or enhanced programs, capacity-building support, one-time, short-term grants to sustain a program until funding is stabilized, matching grants to encourage the participation of other donors, and "last dollars" towards a capital campaign.

Additionally, we favor proposals that focus on making a positive and transformative impact on the community, including long-term investments in social capital and infrastructure; enhancing the viability of the organization and the sustainability of the program; having clearly stated and achievable objectives and timeframes; and emphasizing collaboration within the community and the inclusion of diverse voices/perspectives.

The Foundation does consider proposals in the areas of Environment and Historic Preservation; however, as these are not core focus areas, funding is often limited. Priority will be given to proposals in the other focus areas.
